ELIHO STOUT DEAD

Last Friday afternoon, after a long sickness from Bright's disease, our old time citizen, Eliho Stout, passed to the world beyond. Born in Ohio in 1837, emigrated to Illinois in 1857 and married there Harriet A. Baldwin in 1858, came to Ellis county, Kansas in 1879 and located on his home town farm 4 miles east of town where he lived for years and nicely improved, but as old age crept along they sold out and moved to town to enjoy life in their old age and they have. His death leaves his wife and four children to mourn the breaking of the family group. When he came here he helped organize the Masonic Lodge and always been a faithful member & they had the full charge of the funeral and it was held with Masonic honors at the Presbyterian church Sunday afternoon, which was crowded with sympathizing friends. Rev. Alexander conducting the services, a quite rendering appropriate music while old friends took a last look at their old friend.

Now that we have had another failure to raise wheat in this western section of the state and many did not even get back their seed, the question of another crop becomes a serious one, especially as many must buy their seed.

After watching this wheat raising here for 30 years, and talking with our best wheat raisers, let us beg and advise our farmers this fall to put in LIES Acreage, but plow good and use good seed but less to the acre.

A half to three-quarters of a bushel of good wheat is enough and that is no more wheat than the old way of putting in more of the cheaper kind, in fact don't put in the cheap, stark burned kind under any circumstances. Don't run any risks.

Plow your ground, get it in good condition, remember condition beats quantity of acre, and you won't have half the trouble to get someone to let you have the seed, if you must borrow it, that you would be able to get the easier and at less cost.

Commence plowing as early as possible and plow good ready to seed when weather permits. Try this for this fall and see if it succeeds.
